

priority

task/feature

P1 Modules: Add a preferences panel for loading experimental plug-ins, off by default, and with warning about experimental nature.

P1 Modules: Change initialisation parameters so less risk of unexpected crash if using Audacity at the same time as a connection.

P1 Release Process step 2.1.1 -- Commit to rc's for Linux.

P1 Release Process step 2.1.2 -- Commit to rc's for Mac.

P1 Release Process step 2.1.3 -- Commit to rc's for Windows.

P1 Release Process step 2.2 -- Commit to create Release Notes.

P1 Release Process step 2.3 -- Commit to update website.

P1 Release Process step 2.4 -- Commit to make Wiki changes.

P1 Release Process step 2.5 -- Commit to update Manual.

P1 Release Process step 3.1 -- Turn IS_ALPHA off.

P1 Release Process step 3.2 -- version number of Manual

P1 Release Process step 3.3 -- Update README.TXT.

P1 Release Process step 3.4 -- Update audacity.pot.

P1 Release Process step 4 -- Create Manual.

P1 Release Process step 5 -- Iterate RC cycles.

P1 Release Process step 6 -- Post finals.

P1 Release Process step 7 -- Post Manual to manual.audacityteam.org.

P1 Release Process step 8 - Release Announcements

P1 Release Process step 9 - Tag the release.

P1 Release Process step 10 - Lift code/translations/manual freezes.

P1 Release Process step 11 - Increment to new version. Turn IS_ALPHA on.

script for pulling the manual:

James: Fix the script to correctly handle three css files that are currently dropped. This will re-instate some styling that has been lost. I also fear/suspect that there are other changes to the manual that will have broken the script that need to be addressed.

Gale: "At the moment this isn't too bad as it's been worked around by copying the contents of: <http://manual.audacityteam.org/man/MediaWiki:Common.css> into skins/monobook/main.css on the server. "

James: Will need the work around as I am not going to have time to look at it before the likely release freeze.

P2

Snap-to changes:
Added tooltip.

P3 <It's going to be warning with a don't show me again. >

P2 Rendering across splits can produce samples with value 0:Applied Martyn's patch. Su

P2 Audacity does not build if configured --without-ffmpeg

P2 Specious "Couldn't find symbol 'MainPanelFunc' " message in log

P2 Crash risk if enabling Audio cache

P2 Timer Record Start/End/Duration interdependence broken

P4 Default the selection format in Generators to last used.

P3 Improve Chain export features. Bugzilla entries 548 and 549

P3 Export to directory the file came from.

P3 Export Multiple passthrough of common metadata.

P4 Updated Tremolo.ny

P4 Sample Data Export plug-in

P4 Fix or replace GVerb.

P4 Import files end-to-end.

P4 Control gain sliders on all tracks. Bill: Or a master gain slider (separate from the Play slider, which is a monitor volume control)?

P4 Timer Record improvements
